ABOUT DINH VAN

In 1965, guided by his instinct, Jean Dinh Van created a jewellery brand that nobody was expecting. An iconoclast by nature, he worked the metal with his hands like a sculptor following his creative impulse. Jean Dinh Van's vision was simple: jewellery that was steeped in design, an extension of the body, for everyone, to be worn everywhere, anywhere, anytime. Jewellery that broke away from the norms of the Place Vendôme by sublimating everyday objects.
