### 2 LIPS: A SECOND SERIES THAT REMAINS UNIQUE

The 2 Lips design has been created as an elegant tribute to the infamous French kiss. With a nod to Menottes dinh van and Double Cœurs collections, the limited and numbered edition "2 Lips" offers up a new interpretation of these interlocking forms, with the iconic notches creating a clasp: two graphic mouths that intertwined.

Two new creations on the dinh van chain, featuring one mouth in yellow gold and another mouth with red lacquer, paying tribute to the lacquering trade of Jean Dinh Van's father, combining tradition and innovation in the art of lacquer. A woven bracelet in a bold, lipstick red enhances the 2 Lips fastening, decorated with two yellow gold mouths.

## DOUBLE COEURS: THE ESSENCE OF JEWELLERY BY DINH VAN

Directly inspired by the Menottes dinh van, the Double Cœurs collection features two interlocked hearts shapes, punctuated with the brand's signature notch. Jean Dinh Van worked on this heart and imagined it to perfection, with exquisitely rounded and soft proportions that can be worn as a talisman around the neck or on the ear, with or without a pavé setting.

## THE DINH VAN WEDDING RANGE: SINGULAR AND AVANT-GARDE

### THE SQUARE RING: THE CORNERSTONE OF DINH VAN'S SIGNATURE STYLE.

It was back in the mid-1960s that Jean Dinh Van first sketched and sculpted the geometric concept that would go on to form part of his jewellery-making signature. With his renowned Deux Perles ring (1968) and his Square Bracelet (1968), he soon developed a particular attachment to the square form, which perfectly fits the shapes of the finger and wrist. Drawing his taste for functionalism, Jean Dinh Van introduced the world of jewellery to the notion of comfort. Whilst, by their very nature, wedding bands and engagement rings are jewellery designed for a lifetime, Jean Dinh Van's take on them focuses on their integration into day-to-day life, describing them as "jewellery pieces made to come out of their boxes and get out into the streets".

### SQUARE WEDDING BANDS AND SOLITAIRE RINGS: BLISSFUL HARMONY.

The square structure of these engagement rings pair beautifully with the brand's square wedding bands. The latter are particularly unique given their thickness (2 or 4 mm), their material (gold or platinum), and their setting. All of these meticulously selected design features enable a combination that allow for a perfect match between the wedding bands and engagement rings.

#### ABOUT DINH VAN

In 1965, guided by instinct, Jean Dinh Van created a jewelry brand that defied all expectations. An iconoclast by nature, he crafted metal pieces with his hands like a sculptor, driven by his creative impulse. Jean Dinh Van's vision was simple: crafting jewelry deeply rooted in design, accessible to all, to be worn anywhere, anytime. Jewelry that transcends the conventions of Place Vendôme by transforming everyday objects into jewels.
