PRESS RELEASE
Cape Town, 2023

ENVIRON IS VOTED **TOP MEDICAL SKIN CARE** ONCE AGAIN, IN A DOUBLE HAT TRICK!

Environ has been recognised as the **"Top Medical Skin Care"**, in the Aesthetic Everything Awards 2023 for the sixth, consecutive year! This highly coveted award is a reinforcement of Environ's inspiration and vision to transform and renew skin to its youthful-looking vigour to ensure beautiful skin for a lifetime.

Dr Des Fernandes, Environ Scientific Director and Founder, and his innovative skincare product line using vitamin A and antioxidants, delivers a skincare range, that 33 years later continues to win awards for the groundbreaking application and consistent innovation using the power of beautiful science. Environ offers over 140 products, distributed in more than 70 countries around the world and is used and loved by international skincare therapists, dermatologists, beauty editors, top film stars and super models.

Aesthetic Everything® is the largest network of aesthetic professionals in the world with over 1 million subscribers. The Aesthetic Everything® Aesthetic and Cosmetic Medicine Awards is an annual, global competition established in the USA 14 years ago rewarding excellence across a range of categories. More than 50 000 votes were cast this year to recognise the people and companies that the industry, their patients, and clients love the most.

The Industry Awards shines a spotlight on product manufacturers and practice management companies shaping the future of aesthetic medicine. Every day, pioneering entrepreneurs, researchers, industry influencers and corporations implement

innovative new programs, best practices, devices, and techniques to advance the art and science of aesthetics, which makes Environ's consistent achievement of this award even more gratifying and a true testament to the continual improvement achieved and the legacy Environ has established.

Val Carstens, Environ Group Chairman, shared her gratitude, *"We exist to keep skin beautiful for life. To receive the Award from Aesthetic Everything for Top Medical Skin Care for the sixth time running is incredible. This recognition makes our determination to hold true to our vision of a world where beautiful skin is the norm and not the exception all worthwhile. Thank you from the Environ Team worldwide for this recognition and we will continue to exist to keep skin beautiful for a lifetime."*

Dr Des Fernandes, Founder & Scientific Director was equally as gracious. He shared, *"The Environ Team is extremely proud and honoured to receive for a sixth time, an Aesthetics Everything award that recognises our commitment to deliver the most efficacious professional products to serious skincare therapists and doctors. The cornerstone of daily replacement of retinoids and the basic natural antioxidants of the skin: vitamin C and E will always be our main target for healthy skin, but we are constantly researching for additional molecules that build up, smoothen, and make skin look as young as possible to fulfil our promise of a beautiful skin for a lifetime. We also thank all the skincare specialists who have spread the reputation of Environ Skin Care and our mission to the broader public."*

About Environ Skin Care

Environ is a globally recognised and loved Professional Skin Care brand that is built on science, beauty, and care. Environ believes that skin has a life, and that vitamin A is the “oxygen” it needs to look beautiful and healthy for life. It is for this reason that the brand actively pursues skincare science to skillfully and consistently develop innovative products that work with skin. Environ was founded in 1990 by an internationally acclaimed plastic surgeon, Dr Des Fernandes.

The introduction of vitamin A into skincare formulations was a ground-breaking development in skincare.

Dr. Des Fernandes, rated amongst the top five plastic surgeons in the world, was a pioneer in this field in the 1980s. He was the first to use vitamin A in high enough doses that help counteract the harmful effects of the environment, pollution, and stress to create radiant, visibly improved skin.

Dr. Des Fernandes’s sister, Val Carstens (Environ’s Group Chairman), led the development of the company which today boasts over 140 products, available in more than 70 countries worldwide. Since founding Environ in 1990, vitamin A has become the cornerstone ingredient in the Environ skincare philosophy. It is an essential skin nutrient that must be replenished every day for skin to appear healthier and more resilient.

Environ’s unique and highly effective Vitamin STEP-UP SYSTEM® helps skin to become gradually more comfortable with increasing dosages of vitamin A and other ingredients thereby reducing the likelihood of a skin reaction. It is for this reason that Environ Skin Care products are recommended by trained Skincare Professionals.
