PROGRAMME™

Skin Integrate 28

As a global leader in skincare supplements, Advanced Nutrition Programme™ is taking a new step with the launch of Skin Integrate 28 Biome Powder. This introduction completes the brand's comprehensive "Biome" range by offering prebiotics, probiotics and postbiotics within the range – all essential components for the gut-skin axis.

Since 2019, Advanced Nutrition Programme™ scientists and nutritionists have been pioneers in the skin biomes category. After 7 years of development and exploring the supercharged beverages category as evidence-based authorities release new, validated research, the team are excited to bring to market a powder that transforms into a drinkable skin-gut wellness shot. Backed by 48 clinical studies, you can expect brighter, more resilient and hydrated skin as well as healthy regularity, more energy and improved focus.

ANTIOXIDANT SCORE EQUIVALENT TO
3 ORANGES IN 1 SMART SPOONFUL

Lunch for your Biome

Skin Integrate 28 acts as 'lunch for your Biome,' combining 28 science-backed, powerhouse ingredients including amino acids, vitamin C, zinc and plant fibres with polyphenols. This is like a "superfood for your gut microbiome" to fuel 39 trillion bacteria by increasing the abundance of bacteria in 48 hours and supporting the production of postbiotics. These cleverly synergised ingredients include:

23 PLANT FIBRES WITH POLYPHENOLS

These include green vegetables such as spinach, broccoli, kale, as well as algae extracts of chlorella and spirulina; red fruits such as beet, apple pomace, tomato, cranberry, tart cherry, raspberry, strawberry; proprietary blends of apple, carrot, cranberry and blueberry fibres, black rice, orange, pineapple and kiwi extract, and dragon fruit. These act as prebiotics to feed the microbiome.

AMINO ACIDS

Glutamic Acid, Aspartic Acid and Glycine to support collagen formation, provide antioxidants and encourage wound healing.

VITAMIN C

To contribute to the normal collagen formation within the skin and protect cells from oxidative stress.

ZINC

To contribute to the maintenance of normal skin, bones and hair and support the metabolism of vitamin A.

How to skintegrate

Requiring no refrigeration, this powder is free from gluten, dairy, GMOs and sweeteners, and has been third party tested for heavy metals and screened for 650+ pesticides. Take one heaped teaspoon every day. Skin Integrate 28 can be taken with or without food by mixing in a glass of water, smoothie or yoghurt, sprinkling on food or used to create healthy snacks such as Biome energy balls.

It is ideal for those looking for nutritional insurance for their busy on-the-go schedules, struggling to always take their supplements with nutrient-rich foods. The Skin Integrate 28 powder is suitable for all skin types from 16+ of age, particularly recommended for anyone suffering from SAD gut due to stress, alcohol, ageing, ultra-processed foods or inflammatory skin challenges. Suitable for vegan lifestyles.

"Our skin researchers have spent 7 years researching and developing the ultimate formula to provide 360-degree skin radiance and gut health support in one teaspoon. With a delicate flavour, we consider this as the perfect skin nutrition starter to integrate with other products from our supplement range, or use alone to ensure your gut receives a combination of positive fibre and polyphenols for happy skin and a happy gut."
