

MULTI AWARD-WINNING Seriénce® NIGHT SERUM EARNs GOLD THE GLAMOUR BEAUTY AWARDS 2025

AT

PERSBERICHT (Brussels, 7 November 2025)

Environ Skin Care has won Gold for Best Face Serum at the Glamour Beauty Awards 2025, affirming the brand's position at the forefront of scientific skincare innovation. The award recognises Environ's leadership in addressing one of the most significant modern skin concerns: inflammageing, the chronic, low-grade inflammation that accelerates visible and biological ageing.

"Ageing is not simply the passing of time, it's the cumulative effect of ongoing stress," says Dr Des Fernandes, Founder and Scientific Director of Environ Skin Care. "Everyday pressures, from emotional strain to environmental exposure, create a constant state of micro-inflammation that weakens the skin over time."

Developed to counteract this silent stress response, Seriénce® Night Serum represents a breakthrough in neurocosmetic science. Its scientifically proven actives, Neurophroline®, Malachite Extract, Argireline® Amplified, and Matrixyl® Morphomics™, work synergistically to help the skin adapt, recover, and restore visible calm. The result is smoother, more radiant, and resilient skin that looks and behaves younger for longer.

The Glamour Beauty Awards celebrate excellence and innovation across the South African beauty industry, honouring products that deliver true results. Winning gold in the Face Serum category reinforces what skincare professionals and clients around the world already know, Seriénce® Night Serum delivers visible proof that calm skin is beautiful skin.

As the pace of modern life continues to rise, Environ's award-winning innovation reminds us that protecting the skin's long-term health means addressing more than surface-level ageing. "We believe in going deeper than the surface," adds Dr Des. "Skincare isn't just about looking younger; it's about keeping the skin biologically healthy for life."

ABOUT ENVIRON SKIN CARE

Environ Skin Care is a globally recognised and loved professional skincare brand that is built on science, beauty and care. Since 1990, Environ has used the science of beauty to change the way the world sees skincare. The introduction of vitamin A to skincare formulations was a ground-breaking development, first successfully included in cosmetic products by world renowned Plastic Surgeon and Environ founder Dr Des Fernandes. His sister, Val Carstens, Environ's Chairman, has built the brand from a dream to a global success. Today, Environ has over 140 products in more than 70 countries. Environ has received over 100 international awards which have recognised the brand for its outstanding products, most recently being voted Top Medical Skincare Line in the highly revered Aesthetic Everything® Aesthetic and Cosmetic Medicine Awards for the eighth consecutive year.
