

Winter is on its way, bringing with it a whole magical little world waking up for the festive season! A whimsical unicorn bunny, kind snakes that don't wish to scare anyone, and black but benevolent crows — Gilles' favorite bird — are eagerly waiting to see the illuminated Christmas tree, the true symbol of the season.

Around them, scented candles warm the atmosphere and release inviting tea-inspired aromas: lapsang souchong with fig, black tea with orange blossom, mint tea...

The fragrances Greek Summer, Tea Garden Express, and Country Squire naturally find their place in this joyful décor, ready to celebrate the long-awaited arrival of December.
