Léna Babinet

24 octobre > 22 novembre 2024

MÉMOIRES :

The exhibition "Mémoires" highlights the work of Léna Babinet, whose artistic universe is deeply influenced by themes of memory and collection.

Léna Babinet is a French ceramic artist. After studying animation, she joined the ceramics department at La Cambre, graduating in 2021.

In her work, Léna Babinet explores the different layers of memory, questioning the imprint, trace, heritage, and transmission. As if to anchor memories in time, she focuses on preserving the memory of firings, the materials used, the samples collected, or forgotten rituals. The use of ceramics, inherently durable, allows her to sanctify both everyday and past objects by placing them in an unchanging, eternal timeline.

The exhibition thus invites reflection on the transmission and persistence of traces from the past in our present and their immutability in the times to come.

ABOUT MA :

Ma. is a newcomer to the artistic scene in Saint-Gilles. This artistic center stands out with its mission to support contemporary creation while promoting local and sustainable craftsmanship. This unique space invites both professionals and amateurs to come together in a timeless setting to explore, experiment, and create. Its distinctive feature? Offering a comprehensive view of the creative process: from artist residencies to the gallery, along with a shop and workshops. Everything is designed to guide the art of experimentation through to its transmission.
