

## LA MAMOUNIA MARRAKECH

### L'OENOTHEQUE

#### **The space of the exceptional**

Hidden beneath one of La Mamounia's three lanterns, like a treasure trove accessible via a staircase leading downwards, the wine cellar preserves its precious bottles. An exceptional setting that can be transformed into a private dining room for an extraordinary, timeless experience. In the wine cellar, discover the finds of La Mamounia's sommeliers: more than 2,000 bottles representing as many rare appellations.

#### **L'Œnothèque**

The show takes place both in the subtly lit display cases, where you can view the labels side by side, and in this intimate space, which is enhanced by its decoration: a beautiful chandelier made of braided rope, an original work by Berber craftsmen, hangs down from the opening in the centre of the ceiling, allowing daylight to flood in. It embodies traditional craftsmanship brought into the 21st century, a living example of the ongoing reinvention of an ancestral culture beautifully projected into modernity.

#### **A tailor-made experience**

The 2,000 bottles in the wine cellar surround a magnificent dining table that seats up to twelve people. The space thus becomes an intimate and cosy private dining room for an unforgettable, tailor-made gastronomic experience. Guests can choose from one of our chefs' tasting menus, accompanied by a selection of grands crus for a perfect pairing of food and wine. Every detail reflects luxury at the highest level of refinement: handmade tableware, handcrafted glassware, sommelier at your disposal.

#### **Practical information**

L'Œnothèque can be hired for private parties every day during our restaurants' opening hours.
